

BienTech International

Introduction

San Diego based BienTech, Int. was formed in november of 2005 in San Diego, CA by Eng. Maria Triana Fischer as engineering, sciences and business services solutions company strategically focused on supplying advanced technology skills, expertise and management services to government, military, academia, and commercial, sectors in the USA and internationally

The founder is driven by a singular desire to deliver value added to the customer and taking a long-range view of the customer needs, doing

Smart, Savvy Work

its founder an engineer -who emigrated to the USA, on her own, as a young woman- and gained a well rounded perspective from a unique mix of international, large defense companies, industry, academia and consulting experiences. No grandiose plans, no cash to burn, just an idea and a burning drive to put a concept into practice.

Ms. Triana-Fischer's vision is to understand and exceed the customer expectations by providing practical solutions in a cost effective and efficient manner, on time, on budget and within the contracted terms. Hands on approach management, Bientech International teams are assigned to a customer not a project

Bientech International works within a network of government, organizations and people in several sectors and countries. Bientech has a network on resources internationally (Mexico and Latin America) of government Agencies and institutions, including academia involved in research for Home land Security technologies and Port Security.

BienTech serves clients in government, military, academia, and commercial, sectors.

Contract Vehicles

BienTech is a [Seaport-e prime](#) approved [contract holder for all seven zones](#) –and has teamed with several other primes to respond to government solicitations.

BienTech's Seaport partners include: Large companies- ATT Government Solutions, Nortel Government Solutions, General Dynamics IT, Northrop Grumman, American Systems, and Medium size -Epsilon Systems, Small Business's Calnet, and Veteran Owned Indus Technologies

Depending primarily on the past performance of its principal for initial resources, BienTech's strategy includes providing those initial resources as well as continuing to develop and provide additional personnel resources to offer increased support for contract awards

Security and Interagency

A complete solutions portfolio: Security, services, and IT/communications infrastructure, domain knowledge and demonstrated past performance for Defense, Homeland Security and Public Safety, intelligence, Civil Agencies, Criminal Justice and E-Government.

Together with our SeaPort Team members we bring the whole solution for projects, our in-house capabilities' include technological assistance, recruiting and training key personnel and project policy and procedure development.

Awards and Recognition

As a result of our performance, strategic partnerships, dedication to our work and to excellence in the defense-community, Bientech has become a recognized and sought after small emerging contractor team partner in the Defense Industry as evidenced by the awards of:

- "Heritage Award of Excellence" – Nominee finalist- San Diego Business Journal,
- For the last two consecutive years 2006, 2007
- "California Certified and registered: State Minority Business Enterprise, State Woman Business Enterprise
